Medicare Shared Savings Program – 2018 Performance Year Results

We are pleased to announce the Beaumont ACO is once again the top MSSP ACO in Michigan and ranks among the nation's best! Through our physician/health system partnership, we were able to create over \$45 million in shared savings for the Centers for Medicare and Medicaid Services in 2018, of which the Beaumont ACO gets to share in **\$19.8 million**. This amount is the highest dollar amount awarded to a MSSP ACO in Michigan and number five nationally among the roughly 500 MSSP ACOs across the country, the top 1% nationally. The \$19.8 million dollars over our 23,957 attributed beneficiaries equates to a **15% savings rate**, which again is number one in Michigan and number three nationally. We have done all of this while increasing our quality scores in the program as well. For 2018, our quality score increased a full percentage point to 90%.

Since inception, the Beaumont ACO has generated over **\$125 million** in savings for CMS, and of that, the ACO has received roughly **\$60 million** in shared savings. This performance is the best in Michigan over this period. We are also proud to say this has put us in the 99th percentile nationally among all ACOs. Our success in the program has allowed us to pass a majority of the shared savings generated, after infrastructure costs and reserve funding, back to the participating providers in the program. Currently, over 500 member physicians, both PCPs and specialists, participate in our MSSP covering more than 25,000 patients.

If you have additional questions, would like more details or would like to speak with an ACO representative on how to participate in this contract, please contact our Provider Relations team at 947-522-0037 or via email at: acoproviderrelations@beaumont.org.

Once again, it is the Beaumont ACO's mission to represent the best interest for our physicians and hospitals working together to improve the care of our population with quality, efficiency and patient satisfaction.

Best Regards,
