## A Physician-led Clinical Integration Network

Beaumont Care Partners participating provider,

I have exciting news to share with you. The two partners in BCP, namely Beaumont Health and Beaumont ACO, have made a strategic decision to align all contracts in both entities under the Beaumont ACO, effective April 1. We believe this to be in the best interest of our physicians and will make us a stronger organization better equipped to meet—and assist you in meeting—the challenges of value-based performance in the health care delivery system.

As you are aware, Beaumont ACO has built a very successful model and infrastructure for over a decade and has been in the top five of more than 500 ACOs across the country in terms of quality and efficiency. Additionally, Beaumont ACO is much more than a Medicare Shared Savings Program participant, offering 13 other payer contracting opportunities to our physician network. It is led by a 15-member board of managers, with all but two being physicians, and guided by the principles of transparency, trust and physician leadership.

We value your participation and diligent work toward increasing quality and value for our patients. The goal is to complete the work BCP started to become the nation's top clinical integration network to better serve our community and help hardworking physicians earn more in a value-based health care environment. Attached to this communication, is a frequently asked questions document, to provide more information. Additionally, more communications will follow as we operationalize this change.

Thank you for your continued engagement and support of Beaumont Care Partners. If you have additional questions, would like more details or would like to speak with a network representative, please contact our Provider Relations team at 947-522-0039 or [info@beaumontcarepartners@beaumont.org](mailto:info@beaumontcarepartners@beaumont.org)

I look forward to continuing to work with you.

Best regards,

Belal Abdallah, M.D., MBA
