A Physician/Health System Partnership

## Medicare Shared Savings Program (MSSP) – 2020 Performance Year Results

We are pleased to announce that the Beaumont ACO once again has generated (and will share in) savings for the Center for Medicare and Medicaid Services (CMS) in the Medicare Shared Savings Program (MSSP), marking eight consecutive years in a row! The Beaumont ACO remains one of the top performing ACOs across the country and in the state of Michigan in terms of savings created, savings earned, and savings rate. Please see the table below for more details on our performance as well as other ACO's across the state. Through our model of a physician / health system partnership we were able to create over \$11 Million (a 4.6% savings rate) in shared savings for the CMS in 2020, of which the Beaumont ACO gets to share in **\$8.5 Million**. These results place us in the top 85 percentile of all ACOs across the country. We have done all of this while increasing our quality scores in the program as well. For 2020 our quality score increased over a full four percentage points up to **96.87%**.

Since inception the Beaumont ACO has generated roughly **\$172 Million Dollars** in savings for CMS and of that the ACO has received roughly **\$83 Million Dollars** of that savings. This performance is the best in Michigan over that time period. We are also proud to say that this has put us in the 99<sup>th</sup> percentile nationally among all ACOs. Our success in the program has allowed us to pass a majority of the shared savings generated, after infrastructure costs and reserve funding, back to the participating providers in the program. Currently around 1,300 member physicians, both PCPs and Specialists, participate in our MSSP covering more than 25,000 patients. Once again, it is the Beaumont ACO's mission to represent the best interest for our physicians and hospitals working together to improve the care of our population with quality, efficiency, and patient satisfaction.
