

# We're offering more ways to connect for your care

It's important to see your doctor when you have an acute health need or just to stay on track with managing your ongoing conditions. That's why we offer telehealth visits, connecting you with your doctors via your

While we like to see you in our office, we can still help you manage chronic conditions or treat common nonemergency needs through a telephone call or video chat. You'll get the same individualized, quality care you've come to trust from our office—from the comfort and safety of home.

**A telehealth visit is a safe and easy way to stay connected with us, helping to ensure your health remains a top priority.**

**Now is a great time to start using telehealth visits. Here's what you need to do to get started:**

Call us at

Many health plans are covering telehealth visits, but please check with your plan for specifics on your benefit coverage and what medical necessity rules apply.
