

CEO Update

Dear Beaumont ACO Members:

On behalf of the Beaumont ACO board, I want to thank all of you for your continued efforts to making the Beaumont ACO one of the best in the country. Your commitment to quality and efficient health care remains our foundation for success.

We want to expand our success to the entire Beaumont Health network of physicians and, to do that, we have added two extremely talented and knowledgeable physician executive leaders to help with this strategic priority.

Ghadi Ghorayeb, M.D., and Ashok Jain, M.D., have been engaged by the ACO to network with physicians throughout our market area. Please spread the word to physicians who are not in our ACO about our commitment to transparency, physician leadership and trust. Drs. Ghorayeb and Jain will be reaching out to those physicians to drive growth and engagement across our service area.

I am pleased to announce the ACO launched medical director meetings in the first few months of 2019. This is a new initiative for the ACO to provide further assistance to our practices aligned with us for MSSP and PGIP. Please see Sarju Shah, M.D.'s column in this edition of the newsletter for more information on these meetings. I would like to extend a big thank you in advance, however, for carving time out of your busy day to meet with our medical directors. We believe this is a critical step to achieving success in the programs. Please be sure to ask any questions of them including best practices they have gained from our vast experience in these value-based programs.

Please read through the rest of this important newsletter for additional updates.

Best Regards,

Belal Abdallah, M.D., MBA
Chief Executive Officer
Chair, Beaumont ACO Board
